

Metal-on-Metal Speciality Day 2009

14th January 2009

13:00 - 16:00

The Metal-on-Metal (MoM) Speciality Day is an annual event which allows all of our grant holders in that particular field to come along and give a short presentation about their work and findings so far. This is followed by a short brain storming session in which the groups are able to horizon scan. It also allows the potential for multi disciplinary collaboration.

1. 13:30 John Fisher/ Louise Jennings
2. 13:55 Richie Gill
3. 14:20 Alister Hart
4. 14:45 Afsie Sabokbar/Guillaume Mabileau
